

# Tech Support

---

For technical support and other needs involving semiconductor products, please contact Fujitsu's Customer Response Center (CRC). The CRC provides a single point of contact for resolving customer issues and answering technical questions. The CRC is staffed by computer science and electrical engineers, and handles technical issues across all of Fujitsu Microelectronic's (FMI's) semiconductor product lines.

To reach the CRC, call 1-800-866-8608 Monday through Friday from 7 am to 5 pm (Pacific Standard Time).

For technical support regarding keyboards, relays, connectors and thermal printers, please contact your local [Fujitsu Direct Sales](#) and [Product Representatives](#).
