# **INSTALLATION INSTRUCTIONS**

## **ADO CONTROL PANEL**

### **VERSION 8 SOFTWARE KIT**

#### **1 INTRODUCTION**

These instructions are part of the ADO Control Panel Version 8 Software Installation Kit, Ampex Part No. 1465793, and provide information necessary to install Version 8 software in the ADO control panel. List of Materials No. 1465793A is included for reference.

#### **Note**

The control panel must first be fitted with Version 8 hardware.

#### **2 INSTALLATION**

To install Version 8 control panel software, proceed as follows:

#### **CAUTION**

**ALWAYS TURN OFF SYSTEM POWER BEFORE REMOVING OR REINSERTING PWAs.**

- ✓ STEP 1 Disassemble the control panel monitor housing for access to the Control Processor PWA.
- ✓ STEP 2 Remove existing software PROMs from locations 6P, 6T, 6W, 7P, 7T, and 7W on the Control Processor PWA.
- ✓ STEP 3 Carefully install Version 8 software PROMs according to the following list:

Description	Qty	Ampex P/N
PROM, 27128, CPP, location 6M	1	1472304-AA
PROM, 27128, CPP, location 6P	1	1472304-AB
PROM, 27128, CPP, location 6T	1	1472304-AC
PROM, 27128, CPP, location 6W	1	1472304-AD
PROM, 27128, CPP, location 7M	1	1472304-AE
PROM, 27128, CPP, location 7P	1	1472304-AF
PROM, 27128, CPP, location 7T	1	1472304-AG
PROM, 27128, CPP, location 7W	1	1472304-AH
