Contents

August 1985

VOLUME ONE

■ VOLUME ONE

Contents/Index (100)

Contents • August 1985.

Master Index • August 1985 (100).

User's Guide

User's Guide • Getting Started With Data Decisions COMMUNICATIONS SYSTEMS • June 1985 (150).

Newsletter (200)

Monthly Newsletter • August 1985 to February 1985.

Vendors (300)

Vendor Directory • June 1984 (300).

Technology Reports (400)

Technology Reports • August 1985 (400).

X.25 & Packet Network Concepts And Applications • A Summary of the Popular International Standard in Data Communication and an Evaluation of Its Application to the Problems of Corporate Data Processing • March 1984 (400-700).

The OSI Reference Model—A Blueprint For Network Communication • A Summary of the Basic Reference Model for Open System Interconnection (OSI) Developed by the International Standards Organization and its Comparison with Other Prominent Network Architectures • February 1984 (400-705).

PC-to-Mainframe Communication • May 1984 (400-712).

Local Area Networks (LANs)—A Solution To Resource Sharing & A PBX Adjunct or Alternative • February 1984 (400-715).

Protocol Converters—Bridge To The Future • An Introduction to Protocol Conversion as a Solution to Communication Compatibility • February 1984 (400-720).

Modems & Multiplexers • An Introduction To Basic Concepts & A Guide To Applications • March 1984 (400-730).

Business Communication Networks—Putting It All Together • Strategies For the Selection and Integration of Communication Products • February 1984 (400-735).

Carrier Services—When To Break With Tradition • Guidelines for Matching New Requirements to Common Carrier Alternatives • March 1984 (400-740).

Communication Test Equipment—A Solution To Increased Productivity • An Introduction to Communication Test Equipment, How it Can Resolve Your Network Problems & Eliminate Excessive Downtime, and Guidelines to Selecting the Test Equipment That Best Serves Your Needs • March 1984 (400-745).

Facsimile Terminals • Evaluation & Selection • February 1984 (400-750).

User Ratings (500)

Communications Software Ratings (510)

Communications Software Ratings • Teleprocessing Monitors & Other Communications Packages • May 1984 (510).

Communications Hardware Ratings (520)

Surveys—Communications Software (600)

Communications & Networking • December 1984 (640).

Communications & Networking—TP Monitors & Enhancements • December 1984 (643).

Communications & Networking—Network Design & Management • December 1984 (645).

Communications & Networking—Other Terminal Control Software • December 1984 (647).

Surveys—Communications Systems (700)

Distributed Computer Systems (710)

Distributed Computer Systems • December 1984 (710).

Local Networks (711)

Local Area Networks (LANs) • May 1984 (711).

Distributed Networks (712)

Distributed Network Architectures • July 1985 (712).

Communications Processors (713)

Communication Processors • August 1984 (713).

Terminals (720)

Data Communication Terminals • March 1985 (720).

IBM 3270-Compatible & Replacement Products • April 1985 (722).

Teleprinters & Attachment Printers • July 1984 (724).

■ VOLUME TWO

Surveys—Communications Systems (700) (Contd.)

Modems, Muxes & Support Equipment (730)

Personal Computer Modems • October 1984 (730).

Data Circuit Terminating Equipment (DCE) & Associated Devices • ACUs, CSUs, DSUs, MSUs, Acoustic Couplers, Short-(LDMs)/Long-Haul Modems & Line Drivers/Modem Eliminators • June 1985 (731).

Multiplexers • February 1984 (733).

T1 Multiplexers • February 1984 (735).

Device Emulators & Protocol, Code, Async/Sync & Interface Converters • October 1984 (737).

Facsimile (750)

Facsimile Terminals • July 1985 (750).

Communications Test Equipment (760)

Digital Data Communication Test Equipment • February 1985 (760).

Surveys—Communications Services (800)

Carrier Services (810)

North American Carrier & Network Services • Dedicated Channel, Packet-Switched, Value-Added, Switched & Residential Services • September 1984 (810).

On-Line Services (820)

Products By Vendor—Vols 2, 3 & 4

Note: The product reports listed below are filed alphabetically by vendor behind the Products By Vendor tabs in Volumes 2 and 3, and behind the Telecom Products By Vendor tab in Volume 4. They are cross-referenced below by product type for your convenience.

■ VOLUME FOUR

□ Contents/Index (1000)

Contents • July 1985.

□ Glossary (1100)

Glossary • January 1985 (1100).

□ Technology Reports (1200)

Technology Reports • August 1985 (1200).

Call Accounting Systems • An Introduction to Call Accounting, the Types of Systems Available, Guidelines for System Evaluation & An Overview of the Industry • June 1985 (1200-0027).

Call Distribution Systems • An Introduction to Automatic Call Distributors, Uniform Call Distributors & Automatic Call Sequencers; With an Overview of the Industry & Planning Guidelines • June 1985 (1200-0029).

PBX Systems—The Office Connection • An Introduction to the Concepts of PBX Technology, the PABX System as the Key to Modern Office Communication, and Guidelines for Evaluating and Implementing Your Own System • April 1985 (1200-0034).

Key/Hybrid Telephone Systems • An Introduction to Electromechanical, Electronic & Hybrid Key Systems, the Industry & System Planning Guidelines • March 1985 (1200-0060).

Shared Tenant Services—Smart Buildings Are Here • An Introduction to Shared Tenant Communications, The Technologies Involved, The Issues & The Impact on Building Development • March 1985 (1200-0100).

Teleconferencing • An Introduction to Teleconferencing Technologies & Trends, With Guidelines for Successful Conferences • April 1985 (1200-0145).

□ Surveys—Telecom Systems (1400)

PBX Systems (1410)

Private Branch Exchanges—PBXs • Analog & Digital Systems Supporting Voice-Only & Voice/Data Applications • April 1985 (1410).

Key/Hybrid Systems (1420)

Key/Hybrid Telephone Systems • March 1985 (1420).

Call Accounting Systems (1430)

Call Accounting Systems • June 1985 (1430).

ACD Systems (1440)

ACD Systems • June 1985 (1440).

Integrated Voice/Data Terminals (1450)

Voice Message Systems (1460)

Auxiliary Telecom Systems (1470)

Telecom Software Systems (1480)

Telecommunications Software Systems • Software Products for Call Accounting, Traffic Optimization, Equipment Inventory, Telephone Directory & Resale of Telecom Services • July 1985 (1480).
