Using a working set limited to 900 pages and 49 pages of data storage (excluding image)

Total number object records read (both passes): 90  
of which 36 were in libraries and 4 were DEBUG data records containing 351 bytes

Number of modules extracted explicitly = 1  
with 1 extracted to resolve undefined symbols

9 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written

DIGITAL EQUIPMENT CORPORATION  
CONFIDENTIAL AND PROPRIETARY

A grid of approximately 10 columns and 15 rows of terminal windows. Each window contains text-based data, including system logs, configuration files, and reports. The text is small and difficult to read, but some larger titles are visible, such as:

- BACKUP
- BACKUP MAP
- STABACKUP MAP
- RMSREPORT LIS
- RMSSTATS LIS
- COMMON REQ
- BACKDEF
- FILE

The layout is dense and typical of a multi-processor system terminal display.
