Using a working set limited to 1350 pages and 117 pages of data storage (excluding image)

Total number object records read (both passes): 1681
of which 787 were in libraries and 33 were DEBUG data records containing 2145 bytes

Number of modules extracted explicitly = 17
with 13 extracted to resolve undefined symbols

12 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
