0042 AH-BT13A-SE
VAX/VMS V4.0

DIGITAL EQUIPMENT CORPORATION
CONFIDENTIAL AND PROPRIETARY

The image displays a grid of 100 computer terminal screens, arranged in 10 rows and 10 columns. Each screen shows a different output from a VAX/VMS system, likely related to the AH-BT13A-SE software. The outputs vary significantly, including:

- Text-based data listings and reports.
- Code listings, such as "COO", "COOSHR MAP", "COOEXC2 LIS", "COOLIB LIS", "COOEXC LIS", and "WRITEBOOT LIS".
- Graphical outputs, including bar charts and histograms.
- System status or diagnostic information.

The screens are dimly lit, and the overall appearance is that of a large-scale data processing or testing environment. The text on the screens is small and difficult to read in detail, but the general structure of the outputs is consistent with a technical or engineering application.
