Version:      'V04-000'

V03-005 HWS0004      Harold Schultz      07-Feb-1984
Changed syntax of /LOGICAL_NAME_TABLE qualifier to
/NAME_TABLE. Also added additional protection qualifier
when creating a logical name table of the form:
CREATE/NAME_TABLE/PROTECTION=(SY:RWED,OW:RWED,...)
Add /LOG qualifier to logical name table creation table.

V03-004 PCG0002      Peter George      31-May-1983
Add PREFIX to CREATE/LOGICAL_NAME_TABLE.

V03-003 PCG0001      Peter George      27-May-1983
Add CREATE/LOGICAL_NAME_TABLE.

V03-002 MAJ0001      Melanie Johnson    25-May-1983
These definitions are being added to MCR with the exception of
CREATE/FDL, which is being flagged for MCR to ignore it.

V03-001 SHZ0001      Stephen H. Zalewski  16-May-1983
Modified CREATE qualifiers.

```

```

define type protection
keyword system,value
keyword group,value
keyword owner,value
keyword world,value

define syntax fdl
image createfdl
parameter p1,label=file_name,prompt=" ",value(type=$outfile)

define type attribute_keywords
keyword confine
keyword no_alias
keyword supersede

define syntax name_table
cliroutine cretable
prefix cli$k_cret_
parameter p1,prompt="Table name",value(required)
qualifier user_mode
qualifier supervisor_mode
qualifier executive_mode
qualifier attributes,value(required,type=attribute_keywords,list)
qualifier parent_table,value(required)
