Version: 'V04-000'

V03-014 MAJ0009 Melanie Johnson 02-Aug-1984  
Pick up some little lost queue manager qualifiers (from  
DCLINT) for the STOP/QUEUE commands to make STOP/ABORT, etc.  
work again.

V03-013 MAJ0008 Melanie Johnson 11-Jul-1984  
Change the misspelling of the ASN qualifier /GLOBAL to /GBL  
which is RSX-compatible and matches the documentation.

V03-012 DLB0002 David Ballenger 18-Apr-1984  
Change ALLOCATE syntax to ALLOCATE /GENERIC DEV

V03-011 MAJ0007 Melanie Johnson 30-Mar-1984  
Add /HANGUP, /FULL, and /BRIEF to BYE. Add /JOB to DEFINE  
and DEASSIGN. Eliminate privilege list - it's not needed here.

V03-010 DLB0001 David Ballenger 23-Mar-1984  
Add /HANGUP qualifier to LOGOUT.

V03-009 MAJ0006 Melanie Johnson 25-Jul-1983  
Fold new xlogical commands back into regular logical command  
names.

V03-008 MAJ0005 Melanie Johnson 22-Jun-1983  
Add the x-logical commands for new logical name system  
service use. Remove all forms of the RUN command; use RUN.CLD  
instead.

V03-007 MAJ0004 Melanie Johnson 13-May-1983  
Add MBX verb, undocumented & unsupported, for subprocesses only.  
Eliminate GOTO and ON commands, which were part of the now  
obsolete imbedded indirect. Update privileges.

V03-006 PRB0175 Paul Beck 26-APR-1983 21:26:34  
Add privileges TMPJNL and PRMJNL.

V03-005 PCA1008 Paul C. Anagnostopoulos 25-Mar-1983  
Make all necessary changes for new CDU.

V03-004 PCA1008 Paul C. Anagnostopoulos 11 Feb 1983  
Add the MCRPARSE flag to the ASN verb, so it is explicit.

V03-003 MAJ0003 Melanie Johnson 11-Feb-1983  
Change OUTPUTS MCR(P1) to OUTPUTS (P1)

V03-002 MAJ0002 Melanie Johnson 07-Jan-1983  
Add CANCEL, RESUME, RUN/CHECKPOINT, and RUN/RESTART.

V03-001 MAJ0001 Melanie Johnson 16-Dec-1982  
Delete definition of HELP
