Using a working set limited to 2100 pages and 116 pages of data storage (excluding image)

Total number object records read (both passes):   3240
        of which 1565 were in libraries and 241 were DEBUG data records containing 17952 bytes

Number of modules extracted explicitly   = 9
        with 55 extracted to resolve undefined symbols

258 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
