Using a working set limited to 1500 pages and 955 pages of data storage (excluding image)

Total number object records read (both passes): 783
of which 302 were in libraries and 36 were DEBUG data records containing 3428 bytes

Number of modules extracted explicitly = 5
with 8 extracted to resolve undefined symbols

73 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
