ABSTRACT:

This is the common require file for any module written  
in BLISS

ENVIRONMENT:

VAX/VMS operating system.

AUTHOR: David Thiel, 31-Dec-1981

MODIFIED BY:  
Ping Sager, 20-Sep-1983

This image displays a large grid of 15 columns and 20 rows of small, illegible technical documents or code snippets. The documents are arranged in a regular pattern across the page. Several documents in the grid are highlighted with larger, more legible text labels. These labels include 'STRUCDEF REQ' (located in the 15th column, rows 2 and 3), 'TEMPREQ REQ' (located in the 15th column, row 11), 'DBGADDEXP LIS' (located in the 15th column, row 18), 'DBGATSGN LIS' (located in the 16th column, row 18), and 'SSIDDEF REQ' (located in the 15th column, row 20). The background grid consists of many smaller, less legible documents, likely representing a comprehensive set of system files or code modules.
