Using a working set limited to 600 pages and 77 pages of data storage (excluding image)

Total number object records read (both passes): 368
of which 126 were in libraries and 8 were DEBUG data records containing 685 bytes

Number of modules extracted explicitly = 4
with 0 extracted to resolve undefined symbols

0 library searches were for symbols not in the library searched

A total of 4 global symbol table records was written
