Using a working set limited to 1350 pages and 535 pages of data storage (excluding image)

Total number object records read (both passes): 577
of which 248 were in libraries and 65 were DEBUG data records containing 4317 bytes

Number of modules extracted explicitly = 19
with 0 extracted to resolve undefined symbols

0 library searches were for symbols not in the library searched

A total of 5 global symbol table records was written
