Using a working set limited to 900 pages and 98 pages of data storage (excluding image)

Total number object records read (both passes): 3116
 of which 1500 were in libraries and 409 were DEBUG data records containing 30126 bytes

Number of modules extracted explicitly = 77
 with 1 extracted to resolve undefined symbols

4 library searches were for symbols not in the library searched

A total of 4 global symbol table records was written
