Using a working set limited to 750 pages and 33 pages of data storage (excluding image)

Total number object records read (both passes): 122  
of which 37 were in libraries and 2 were DEBUG data records containing 58 bytes

Number of modules extracted explicitly = 0  
with 2 extracted to resolve undefined symbols

17 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
