Using a working set limited to 1950 pages and 794 pages of data storage (excluding image)

Total number object records read (both passes): 5522
of which 2705 were in libraries and 499 were DEBUG data records containing 29117 bytes

Number of modules extracted explicitly = 1
with 159 extracted to resolve undefined symbols

187 library searches were for symbols not in the library searched

A total of 35 global symbol table records was written
