A grid of 100 terminal windows, each displaying a different system utility or command-line interface. The windows are arranged in 10 rows and 10 columns. Several windows are clearly legible and contain the following text:

- LIBFIXUPD LIS
- REDSYM R32
- CRETRANS LIS
- SFKEYWRD LIS
- SORCOLLAT LIS
- OPCODES LIS
- SORARCHAT LIS
- SORCOLUT LIS
- SORCOMMAN LIS

Each window typically shows a header with the name of the utility, followed by a list of options or a detailed description of the utility's function. The text is rendered in a monospaced font, characteristic of early computer terminals.
