Using a working set limited to 900 pages and 78 pages of data storage (excluding image)

Total number object records read (both passes):   530
     of which 207 were in libraries and 14 were DEBUG data records containing 427 bytes

Number of modules extracted explicitly   = 7
     with 1 extracted to resolve undefined symbols

9 library searches were for symbols not in the library searched

A total of 4 global symbol table records was written
