The image displays a grid of 144 small terminal windows, arranged in 12 rows and 12 columns. Each window shows a different screen from the VAX/VMS V4.0 software. The screens contain various text-based data, including lists, tables, and command-line outputs. Two windows in the middle-right section are highlighted with larger text labels: 'DAFMSG LIS' and 'DAFPARSE LIS'. The overall appearance is that of a multi-screen terminal session, likely used for system administration or data processing.
