Using a working set limited to 1050 pages and 66 pages of data storage (excluding image)

Total number object records read (both passes): 394  
of which 130 were in libraries and 4 were DEBUG data records containing 192 bytes

Number of modules extracted explicitly = 2  
with 2 extracted to resolve undefined symbols

22 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
