0431 AH-BT13A-SE
VAX/VMS V4.0

DIGITAL EQUIPMENT CORPORATION
CONFIDENTIAL AND PROPRIETARY

The image displays a 10x10 grid of terminal windows, each showing a different VAX/VMS utility or its output. The windows are arranged in a regular grid pattern. Some windows show command prompts and user input, while others show system messages, error messages, or data listings. The text is rendered in a monospaced font, typical of early computer terminals. The utilities shown include:

- WELCOME TXT
- LOGIN COM
- SYSTARTUP COM
- XOBOOT LIS
- REMOVE COM
- VERIFY LIS
- VERIFY
- UVMS
- UVSTARTUP COM
- VERIFY MAP
- ADDUSER COM
- MODPARAMS DAT
- RESTUSER COM
- BACKUSER COM
- SYLOGIN COM
- SUCCESS TXT

The background of the grid is dark, and the text is light, creating a high-contrast visual. The overall appearance is that of a multi-user system terminal screen from the early 1980s.
