

IT'S THE STORAGE DEVICE FOR THE NEW FRIDEN* 6018 MAGNETIC DISC FILE

Friden*6010 Electronic Computer with 6018 Magnetic Disc File

A WHOLE PAYROLL ON A SINGLE DISC!

Yes, you can store all necessary information for a payroll of 960 persons on one Friden* 6018 disc-specifically, 122,880 alphanumeric characters. You can use other discs for your invoicing, or inventory, or accounting, or whatever data you have that requires fast processing on the Friden 6010 Electronic Computer. With the announcement of the Friden 6018 Magnetic Disc File, Friden offers the only available small-scale computer system with random access magnetic disc storage. This means that small and medium-sized companies can afford the advanced data processing techniques previously restricted to large companies. The 6018 Magnetic Disc File operates on-line with the 6010 Electronic Computer. Each side of a disc contains 960 individually addressable computer words of 64 characters each, or a total of 61,440 characters of on-line storage. Because the discs are interchangeable, off-line storage is unlimited. Features include automatic address verification, which assures that each record is properly located, and variable length data capability, which permits use of records of any size. Although standard word length is 64 characters, words may be expanded up to 512 characters. Data may be recorded on the disc through the 6011 Flexowriter* (the basic inputoutput unit of the system), or directly from the 6010 central processor. The entire system - 6010 Electronic Computer and 6018 Magnetic Disc File-takes up little more space than a secretary's desk. It may be plugged into any standard wall outlet. Air conditioning is not necessary. Here is a low-cost, small-scale system that embodies the most advanced electronic data processing techniques. Why not find out how its moneysaving capabilities can work for your company? Your local Friden Systems man has the facts. Call him soon.

APPLICATIONS:

Invoicing Inventory Updating Critical Item Purchase Reports

Accounts Receivable Aging Reports Payroll Labor Distribution

Petroleum Billing Utility Billing Tax Billing

General Accounting Budget Accounting Route Accounting

Hospital Accounting Mortgage Loan Accounting

Cost Analysis Sales Analysis Accounts Payable

Personnel Records Production Control Stock/Bond Confirmation

Quality Control Numerical Control

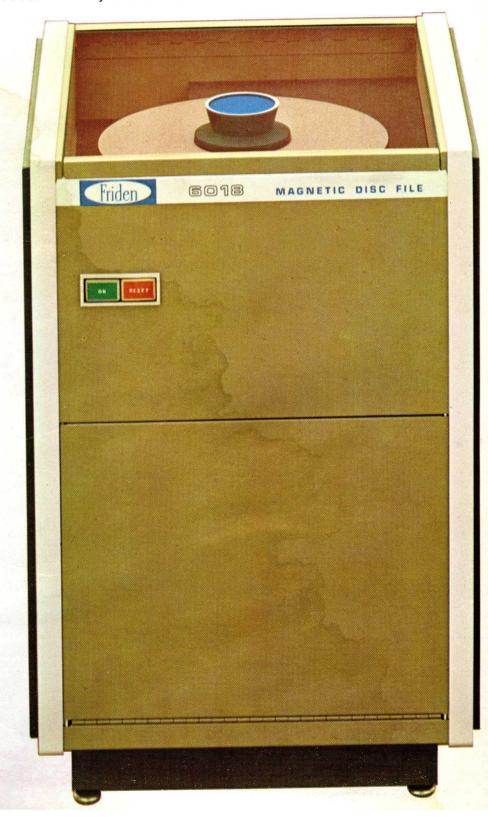

Parts Explosion Formulation Explosion

Correlation Least Squares Computations

THIS IS THE FRIDEN 6018 MAGNETIC DISC FILE

A low-cost, random access memory unit for the Friden 6010 Electronic Computer

SPECIFICATIONS:

to the second se

6018 MAGNETIC DISC FILE

6010 ELECTRONIC COMPUTER

PROCESSING SPEEDS

Access Time ______6 ms minimum
180 ms average
360 ms maximum
Latency Time ______0 ms minimum
25 ms average
50 ms maximum

OPERATIONAL CHARACTERISTICS

Disc_______1,200 r.p.m. Data transfers at 50 ms per character to 6010 central processor, 100 ms per character to 6011 Flexowriter

Read/Write Head _____Contacts disc with pressure equivalent to 1 gram

DATA ORGANIZATION/CAPACITY

7 bits per character 64 characters per word 8 words per track 60 tracks per zone 2 zones per disc side 122,880 characters per disc 61,440 characters per disc side (maximum on-line storage)

512 characters per track 64 characters per word

(expansible to 512 characters, or one track)

DIMENSIONS/WEIGHT

Console _______17³/₄" by 18¹/₂" by 27" high; 120 lbs.

Disc _______12" diameter; 14 oz.

INTERNAL OPERATING SPEEDS

Add/Subtract: 1.3 ms

Multiply: 50 ms average
Division and Square Root: program subroutine
Input/Output: 10 characters per second

(all operating speeds include core access)

MEMORY

Variable Storage _____240 decimal digits of core memory in 15 words of 16 digits each

Fixed Storage _____80 decimal digits in 5 words of 16 digits each

POWER REQUIREMENTS

105-115 volts, AC, 60 cycles $(\pm^{1}/_{2} \text{ cycle})$ 2 amperes maximum

Your local Friden office can give you complete details on how the Friden 6010 Electronic Computer with 6018 Magnetic Disc File can improve operations in your company. Why not call now? Or write to/
