Ask about ICL almost anywhere in the world. You'll learn that we're Europe's largest computer producer, with manufacturing facilities on three continents and customers in 83 countries ranging in size from small businesses to multi-national giants.

Ask about our System Ten.

You'll learn that it's at work on five continents in over 4,000 installations with a proven record of dependability and operational features that out-perform any other mini-computer of comparable configuration.

Now we're introducing the newest generation of this respected series, the System Ten 220 and it's loaded with features you should learn about:

- A processor expandable from 20,000 to 160,000 characters
- A core that can be divided into as many as 20 partitions each running its own program and each able to handle ten I/O devices.
- A range of disc drives providing from 8 million to 160 million characters of on-line storage.

The System Ten 220 is ready for use with an extensive library of real-time packages for applications in Manufacturing, Retail Sales, Distribution and Service operations. Starting price for the basic hardware system is less than \$40,000.

If you're a computer professional planning a new system or upgrading a present one, you should learn all about the System Ten 220.

Contact us now for full details on the System and on the \$650 million world leader that was first in Virtual Memory, Platter technology, MOS storage and many other computer innovations that may surprise you. Contact us today. We're here now...to serve you.

Count on us. Millions do.
